

CANOPY CLEANING & MAINTENANCE

Your canopy expertly cleaned and restored to it's former glory!

All of our site visits consist of the following:

- Removal of leaves/debris
- Full polycarbonate roof wash
- Guttering and downpipes cleared of leaves & moss and flushed through
- All steelwork wiped and cleaned down
- Touch up of any minor scratches and damage to the paint (colour & canopy dependant)

Kappion Canopies are specialists in canopy installation and cleaning. We use the appropriate access equipment and cleaning products to achieve excellent results.

A carport canopy is a great addition to your home or premises and is often an expensive investment. If it's not maintained it can quickly become dirty and start to look tired and old. This not only reduces the aesthetic appearance but over time can cause physical damage.
