Commercial, industrial & retail canopies	9
Car parking canopies	10
School, college, university canopies	11
Smart repair bay canopy	12

ANY SIZE. ANY COLOUR. REALLY SMART ENGINEERING!

Car valet canopies and wash bay walls designed, manufactured and installed is an ideal solution for professionally valeting vehicles. Our design incorporates an uninterrupted span that allows great access around cars and vans with cleaning equipment and machinery. The wide span also allows vehicle doors to be opened to assist with interior cleaning without restriction.

Our car valet bay canopy offers protection for the elements 365 days of the year. So no matter what the weather, you can provide the best service to your customers. You can also be sure that you are protecting your staff underneath the canopy so that they can provide a professional finish for you and your customers.

All of our solutions come complete with:

- Tailored design
- STRONG! steel construction
- Hot dip galvanised for the ultimate protection
- Optionally the structure can also be powder coated (to your specific RAL colour)
- Glazed with long lasting structured polycarbonate

Kappion
carports-canopies.com

A Handover Bay Canopy enhances your customer sales experience and offers that extra after sales touch. The ultimate free standing canopies that Kappion design, manufacture and install are an ideal addition to your premises. Our canopies allow you to ensure the customer sees their new purchase in top condition when they arrive to collect their vehicle.

All of our canopies come complete with:

- ➔ Tailored design & sizes
- ➔ STRONG! steel construction
- ➔ Hot dip galvanised for the ultimate protection
- ➔ The option to have your canopy powder coated (to your specific RAL colour choice) - full duplex coat
- ➔ Glazed with long lasting multiwall polycarbonate

Here at Kappion, we appreciate the importance of good design, 1st class manufacturing and good old fashioned customer service and support. Our canopy solutions are designed to enhance your companies image as well as provide the much needed additional covered space. Our ultimate canopies are professionally installed with the least amount of disruptions to your business.

Where there is Sun.. **THERE IS ENERGY!**

With the spiralling cost of energy many of us are looking at ways to subsidise it. Why not turn your attention to the abundance of free energy all around us? Solar Radiation better known as The Sun. We all have access to the necessary surface to harness this free electricity in the form of a roof, be it a building or a canopy.

Kappion is able to offer a versatile range of solutions to solar energy generation providing alternative mounting of solar where roof mounting options are not viable.

- ➔ All of our carports and canopies can be designed to accommodate solar
- ➔ Full design, manufacture and installation of the Carport/Canopy to optimise solar power generation
- ➔ Proven track record of quality carport and canopy installations
- ➔ Payback (ROI) in as little as 8 years*
- ➔ Battery backup options available to store solar energy
- ➔ Both Rigid and Flexible high efficiency monocrystalline PV Panels providing versatility of design
- ➔ Full project management
- ➔ Full structural calculations for the installed postcode
- ➔ Carports and Canopies are installed by MCS certified engineers
- ➔ EV charge points and solar diverters for heating can be included to further utilize the energy generated
- ➔ Energy independence. No longer at the whim of the energy companies

Our commercial canopies are labeled **UNIQUE, PREMIUM, LUXURY & HIGH-END** by our customers.

We help you or your customers cover and protect almost anything from the weather and elements. Our canopies are strong, aesthetically pleasing, contemporary and the best you can buy.

Typical installations include:

- ➔ Cafe, restaurant and tea room extensions
- ➔ Airport walkways queuing canopies
- ➔ Parking canopies
- ➔ Cleaning canopies
- ➔ Valet bays
- ➔ Handover bays
- ➔ Entrance canopies
- ➔ Spectator canopies
- ➔ Plant and machinery protection canopies

All our canopies come with these premium features:

- ➔ Can span 7 meters without any intermediate posts or support
- ➔ Freestanding - Made from steel they can stand on their own without the support of a building.
- ➔ Custom Designed to fit your exact situation, requirements and application.
- ➔ Optionally Powder Coated to a colour of your choice to help the canopy blend into its surroundings or match your corporate branding.

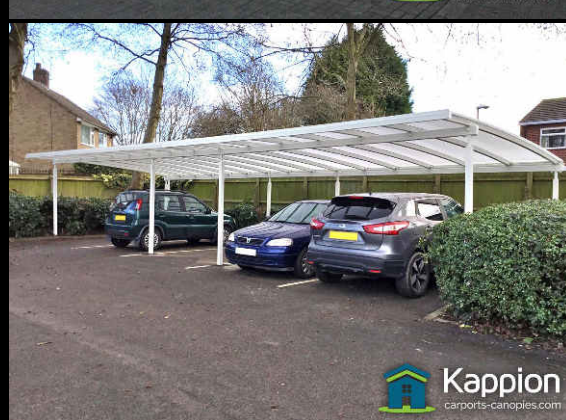

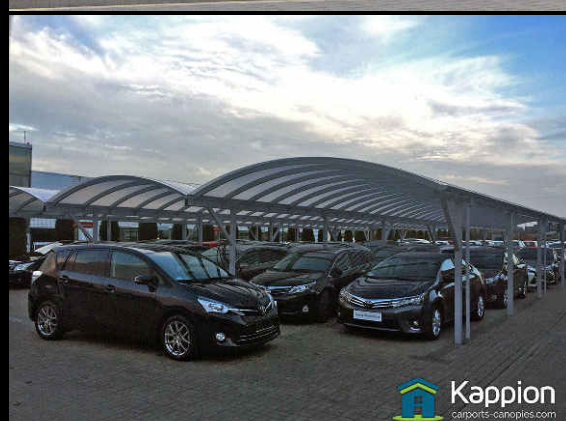

ANY SIZE. ANY COLOUR.
Awesome design engineering!

A car parking bay canopy professionally designed and installed will provide you with a large outdoor covered area to cover commercial or domestic parking spaces. We will provide you with the best freestanding or wall attached carport canopy there is, at a surprisingly great price.

Our car parking bay canopies can be designed to be able to span large openings without the need for any intermediate supports (posts). As a result, this allows the you or your client to comfortably cover standard or custom car parking spaces. The main advantage of being able to span the vast width is removing the need for additional support. This increases the canopies usability and takes away any potential obstructions.

All of our canopies come complete with:

- Custom tailored designs and sizes
- **STRONG!** steel construction
- Hot dip galvanised for the ultimate protection
- Optionally powder coated (to your specific RAL colour)
- Glazed with long lasting structured polycarbonate

STRONG, **CUSTOM DESIGNED**, PROPERLY MANUFACTURED & **INSTALLED**

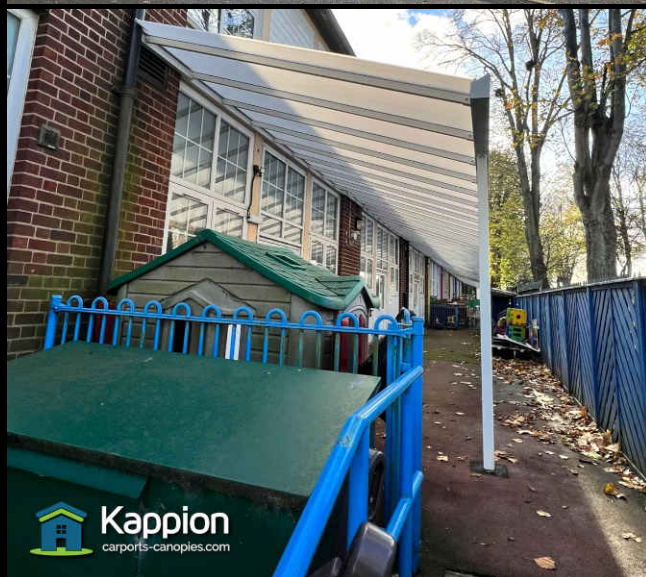

When you commission a school, college or university canopy installation with Kappion you can be reassured that it will be custom designed and structurally engineered to work with your geographic location. It will be designed to withstand the snow loads and wind speeds for your area. The canopies that we install are made from steel for the ultimate strength and resilience. They are hot dip galvanised & powder coated in your chosen colour - a full duplex coat. Guttering and downpipes will be designed to meet your exact requirements, which will allow water to be directed to the nearest surface drain, keeping the canopy area dry.

Our canopies can also be used for the following applications around your school, college or university:

- ➔ Walkway canopies
- ➔ Entrance canopies
- ➔ Covered playground canopies
- ➔ Extended classroom canopies
- ➔ Outdoor dining canopy
- ➔ Parent waiting canopies

A GREAT SHELTER - The Best Smart Repair Bay Canopy

Smart repairs are an essential part of the motor trade. Every car dealership needs the ability to call on either their own smart repair person or organises an external smart repair guy who might visit a few times each week. The problem with this is that often they don't have anywhere to work because the workshop and everywhere else undercover on the site is already full and in use.

Our solution to this problem is to install the ultimate smart repair bay canopy. With its clear glazed roof infill panels to the sides of our shelter provides the ultimate enclosed space for working. Light and airy it's great for vehicle bodywork repairs.

The ultimate smart repair bay canopy is bespoke designed and manufactured allowing us to cater for any eventuality and space. We can also span large distances without the need for intermediate legs or posts, providing you with the ultimate working space.

Enclosure options include:

- Structured polycarbonate
- Solid polycarbonate
- Corolite - with super strength and longevity
- Electrically operated roller doors
- Lockable wing or sliding doors
