DOMESTIC CATALOGUE 2024

Some of the most prestigious companies in the UK are sheltered by a Kappion canopy. Here are just a few.

ABOUT KAPPION CARPORTS & CANOPIES

"A premium range of carports & canopies, designed, hand-made, built-to-last and installed by a professional team of passionate people."

Kappion Carports & Canopies was incorporated to provide our customers with a premium range of carports & canopies. Beautifully designed, hand-crafted and installed by an amazing team of individuals.

Our in-house teams provide the full complement of services, designed specifically for both domestic and commercial customers alike.

Our carport canopy services include:

- Full project management
- 360 degree onsite point cloud surveying
- Full bespoke canopy design
- CAD design engineering
- Full structural engineering calculations
- Custom hand-built canopy manufacturing
- Groundworks; excavation and concrete foundations installation
- Professional canopy installation - using our own teams
- Finish and makeup; including any flashing and surface finish groundworks
- And most importantly; *good old fashioned customer service & support*

We are a trusted canopy manufacturer & installer.

With impeccable attention to detail you can be sure that from the point of first contact to the point in which our professional fitters have installed your canopy you will have received the full Kappion effect.

We provide exceptional customer service and support.

Kappion
carports-canopies.com

Looking for something different? The 2023 Europort Carport.

Made from steel, featuring super chunky aluminium fascia, with *lots* of infill options, such as glass, rainscreen Siberian Larch, slatted powder coated aluminium.... you name it. We can design these canopies to have a storage room with sliding or wing lockable doors and we even do clever stuff like hide the downpipes in the posts. These carports really are and do look the business!

Hand made. Built to last. Fully guaranteed.
Any size. Any Colour.
Bespoke contemporary modern design.

- ➔ Huge spans with no intermediate posts, with ease
- ➔ Choice of roof glazing material, including solar
- ➔ Professionally designed, manufactured and installed
- ➔ Engineered to work for you and your requirements.

"May I say how happy I am with both your excellent service and product which, certainly, is sturdy and yet attractive. Your fitters were very efficient and despite the bad weather, completed the job rapidly. I will not fail to recommend your company."

THE QUBIK

GET A FREE QUOTE >

The 2023 Qubik Carport or Patio Canopy

Made from steel, with super chunky gutters and posts these free standing canopies are strong, contemporary and modern. The gutter and fascia are in one and wrap around the whole structure. The internal rafters have a gentle curve which is not visible from the outside of the canopy.

As with all of our carport and canopies you can choose to add wall infills for additional protection from the elements

Hand made. Built to last. Fully guaranteed.

Any size. Any Colour.

Bespoke contemporary modern design.

- ➔ Huge span. Up to 3 cars with no intermediate posts, with ease
- ➔ Choice of roof glazing material, including solar
- ➔ Professionally designed, manufactured and installed
- ➔ Engineered to work for you and your requirements.

"Thank you for my beautiful and solid carport. Tim you and your team have been professional, understanding and clear communicators from start to finish. I can highly recommend Kappion carports and canopies to anyone."

Jasper, Bournemouth

SOLAR CARPORTS

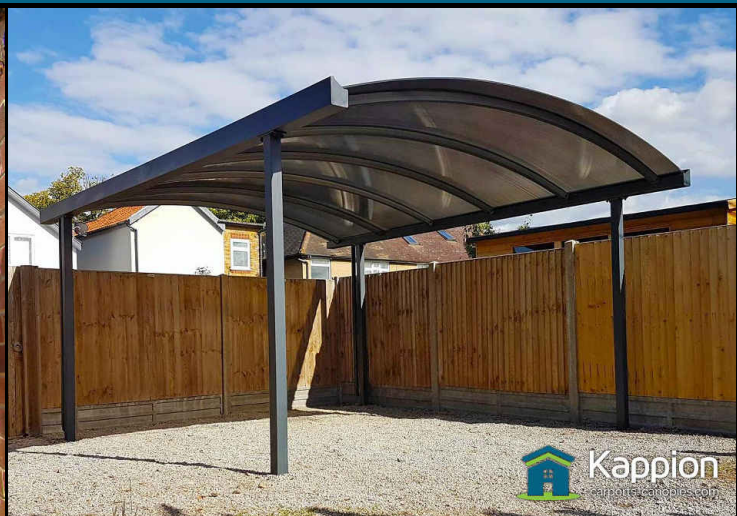

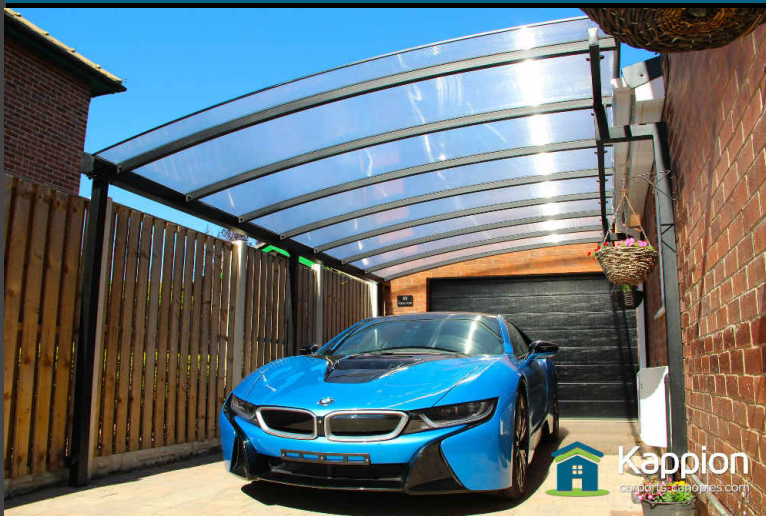

Where there is Sun.. there is energy!

With the spiralling cost of energy many of us are looking at reducing our energy usage. Very few turn their attention to the abundance of free energy all around us, Solar Radiation better known as The Sun. We all have access to the necessary surface to harness this free electricity in the form of a roof, be it house, shed or a carport. Kappion is able to offer a versatile range of solutions to solar energy generation providing alternative mounting of solar where roof mounting options are not viable. A single carport offering annual solar power generation in the region of 2800 kWh with a system size of 3.6kW. In monetary terms that's £950¹ of energy savings per year.

- All our carports and canopies can be designed to accommodate solar
- Full design, manufacture and installation of the Carport/Canopy to optimise solar power generation
- Proven track record of quality carport and canopy installations
- Payback (ROI) as little as 8 years²
- Battery backup options available to store solar energy for use at evenings
- Both Rigid and Flexible high efficiency monocrystalline PV Panels providing versatility of design
- Full project management
- Full structural calculations for the installed postcode
- Canopies and Carports installed by MCS certified engineers
- EV charge points and solar diverters for heating can be included to further utilize energy generated
- Energy independence. No longer at the whim of the energy companies

¹Based on £0.34 unit price
²Double carport 7.2kW

FREESTANDING OR WALL ATTACHED

Our freestanding or attached curved carports are our most cost efficient solution to getting that car covered well with beauty and style.

We design engineer all of our carports to suit. If you have soffits and downpipes or windows and doors in the way then we can make one of our carports fit the space perfectly. We use advanced 360 degrees point cloud scanning techniques that allow us to be millimetre-perfect in design.

ANY SIZE. ANY COLOUR. BESPOKE DESIGN ENGINEERING!

Installing a carport is an ideal solution for protecting you and your vehicle from the weather and harmful UV rays.

A carport can give you that additional sheltered space, whether you are getting the shopping in from the car, or you need somewhere to work on or wash your car whilst staying dry.

All of our canopies come with:

- ➔ Complete bespoke design
- ➔ Made-to-measure, hand-made & built-to-last
- ➔ STRONG! steel construction
- ➔ 80 microns hot dip galvanised coating
- ➔ 80 microns powder coated fine textured finish (your choice of RAL colour)
- ➔ Glazed with long lasting structured polycarbonate

ANY SIZE. ANY COLOUR. CUSTOM ENGINEERED!

Our Ultimate freestanding wide carports are specifically designed to be able to span big distances without the need for any intermediate supports or posts. As a result this allows you to comfortably park up to 3 cars side by side with room to spare.

The main advantage of being able to span the vast width is removing the need for additional support. This increases the carports usability and takes away any potential obstructions.

"We love our new carport, it looks amazing.

At last, no more tree sap and pigeon mess on our cars. The fitters were great, nothing was too much trouble.

We would recommend Kappion any day."

Denise Johnson, Nottingham

- Complete bespoke design
- Steel construction
- Hot dip galvanised
- Powder coated to your specific RAL colour choice
- Glazed with long lasting multiwall polycarbonate

WIDE SPAN CARPORTS

Our motorhome canopies will protect your motorhome or caravan from the weather and can dramatically reduce the amount time you need to spend cleaning and maintaining the vehicle.

Our canopies allow you to load your vehicle and perform all of your pre-trip checks, in the dry, under your canopy.

When you return from your adventure, simply park your vehicle under the canopy where you can be sure that your motorhome is once again protected from the elements.

All motorhome canopies come complete with:

- Complete bespoke design
- STRONG! steel construction
- Hot dip galvanised for the ultimate protection
- Powder coated (to your specific RAL colour choice)
- Glazed with long lasting multiwall polycarbonate

[Click to watch our motorhome canopy video](#)

"Kappion Have just completed a bespoke carport alongside our large garage to cover our new campervan and cars. From initial contact the service from Tim and his team has been first class and a pleasure to deal with. I would have no hesitation in highly recommending Kappion has a supplier."

Andrew Frank, Hutton Rudby

Our Ultimate garden veranda patio canopies are either freestanding to create an outdoor covered area away from buildings or can be connected to your house to create a seamless indoor/outdoor covered space.

A patio canopy gives you the freedom to entertain outdoors all year round, giving you protection from the elements whilst giving you peace of mind during the unpredictable summer months that a party won't be ruined by a surprise shower.

All canopies come complete with:

- ➔ Bespoke custom design
- ➔ Strong steel construction
- ➔ Hot dip galvanised protective layer
- ➔ Powder coated (to your specific RAL colour choice)
- ➔ Glazed in structured polycarbonate

Kappion
carports-canopies.com

Our carports and canopies can be made to fit the most unusual situation and this is because we design and manufacture our carports to meet your individual needs.

Any size. Any colour. Anywhere! Really.

From custom wall brackets to avoid posts taking up valuable space to carports that need to avoid openings, soil pipes, boiler flues... you name it, we can do it.

- Complete bespoke design
- Designed to fit in the most awkward of situations
- **STRONG!** steel construction
- Hot dip galvanised for the ultimate in protection
- Powder coated (to your specific RAL colour choice)
- Glazed with long lasting multiwall polycarbonate

"Just a short note to say how pleased I am with the carport. The quality is tremendous and it is clearly a product that is built to last."

Tony Stevens, Kent

Our bespoke Ultimate walkway canopies are a great way to create that covered space with full protection from the elements.

Often walkways are the most awkward space to shelter because you can't just pick something off the shelf and hope that it is going to fit. It takes a lot of design & planning.

At Kappion we can design a walkway canopy that will cover the most awkward of spaces - tapered, with soffits, you name, it we can do it.

All canopies come complete with:

- ➔ Bespoke custom design
- ➔ STRONG! steel construction
- ➔ Hot dip galvanised protective layer
- ➔ Powder coated (to your specific RAL colour choice)
- ➔ Glazed in structured polycarbonate

"Our walkway canopy is millimetre perfect and the finish is outstanding. I would not hesitate to recommend the Kappion team."

Brian & Barbara, Berkshire

We have light.. and we can create theatre!

Upgrade your Kappion **carport or canopy** with our spectacular solar or mains powered LED lighting solutions.

We can design and integrate LED lighting to illuminate your space. Aesthetics are really important to us so you can be sure it's going to look amazing!

Our solar option allows your lighting to be off-grid, the batteries are topped up during the day and are used for creating light at night.

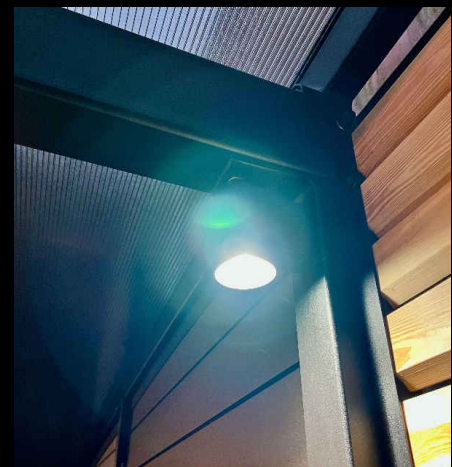

To help we have our very own lighting technician who can provide the right lighting ambience for your carport or patio canopy project.

Our canopy lighting rig solutions feature:

- Powered by solar & battery or mains connected
- Controlled by PIR on approach or by the on/off switch
- Full remote and App controlled RGB or warm or cool light
- Can be specified at the point of design or retrofitted to any Kappion carport or canopy
- The light bars can follow our curved roofing sections to create awesome lighting and aesthetics. Proper classy stuff!
- Can be installed as concealed lighting
- Available in up-lighters, down-lighters, directional spots and light bars ... all to make your space shine bright
- We install a custom IP65 enclosure to house the control gear and batteries (if you go for the solar option) that is powder coated to the same spec and level as the carport or canopy
- Exceptional quality lighting components, control gear and cabling, just what you would expect from Kappion. You get our full attention to detail.

WING DOOR & POLYCARBONATE

POWDER COATED ALUMINIUM

STORMSHIELD

RHOMBUS RAINSCREEN LARCH

SLIDING DOOR & WPC

We can infill the walls of your new Kappion carport or canopy with the following options, Ideal for extra protection from driving weather, to create privacy walls, adding an architectural feature or creating a storage room:

- Structured or solid polycarbonate, framed
- Stormshield mesh; 25% permeable with 3.3 tonnes of tensile strength
- Rhombus shaped rainscreen in Larch or Cedar
- Wood Polymer Composite (WPC); available in 4 colours
- Glass; framed or clamped
- Powder coated spaced aluminium, framed
- ISO (sandwich) panels
- Structural Insulated Panels (SIPS), clad in your chosen material

Additional to the walls we can also extend past the carport to create a fence, for example.

We can add access doors such as:

- Wing doors
- Sliding doors
- Electric or manual roller doors
- Bi-fold doors

Just like the size, colour and style of your carport, all of these options are customised to your specific requirements.
